

Abstract Template

TITLE (Title should be written concisely and Capital Each Words, bold, single space, Arial font style, and 12pt font size, 12 words maximum)

Author name¹, Author name², (name of presenter is bolded and underlined)

¹Author's affiliation and country: 12-point type, centered, italicized.

²Author's affiliation and country: 12-point type, centered, italicized.

Corresponding author's email address: 12-point type, centered, italicized.

Purpose: The purpose section must include a concise description of the background or rationale for the study, with the specific purposes, questions addressed, and/or hypotheses tested. Lengthy descriptions of rationale are not necessary or desirable.

Method: The method section must describe the study design (qualitative, quantitative, multi and/or mixed methods) and general procedures including characteristics and numbers of participants and data collection methods. If the study does not involve primary data collection, information should be provided on the methods used to summarize previously reported data (e.g., narrative, or systematic review, meta-analysis).

Results: The results section should summarize findings to the stated purposes of the article.

Conclusions: The conclusions section must state specifically the extent to which the stated purposes of the article have been met and the potential implications (theoretical and/or clinical) of the findings.

Keyword: provide a minimum of 3 keywords and a maximum of 5 keywords and avoid general and plural terms and multiple concepts.
